5 Piece Dry Diamond Core Set

A combination of superior design and high quality manufacture.
Ideally suited to lightweight building materials, ordinary facing brickwork and blockwork up to 10N/ mm.
Range is designed to give rapid, clean service entries with virtually no making good required.
Virtually no break out damage.
Features laser welded Diamond Segments for extreme durability.
Power tools of over 900W with a slipping clutch are required.
Rotary action only. Can be SDS Plus or Hex driven. (117 & 127mm cores should not be used with the SDS Plus adaptor).
½" BSP thread system.

Set contains:
1 X 127, 117, 65, 52 & 42mm Dry Diamond Core drill.
1 X SDS Plus to ½" BSP Adaptor
1 X Hexagon to ½" BSP Adaptor
1 X 200mm ½" BSP Extension
1 X 10x400mm Masonry Pilot Drill
1 X 225mm A-Taper Guide Rod
1 X Extractor Pin
