Acel part number AC0464

WoodBeaver - 20mm

The WoodBeavers quad flute and quad cutting head design sets it apart from other wood drill bits available on the market and gives a drilling performance that can't be beaten.

¼" Quick-Change shank* for added convenience and rapid diameter tool change.

Up to 25mm can be used within an impact driver.

Short lightweight body construction for maximum holes per charge in cordless machines.

Four deep auger style flutes for rapid chip evacuation and faster drilling speeds.

Four precision ground cutting teeth for extreme drilling comfort and balance.

Purpose designed head geometry for ultra clean breakthrough.

*Apart from 32mm which has a 7/16"shank & can't be used in impact drivers.
