AC5398

Emerg. Light Test Switch

- Assists The Testing Of Emergency Lighting In Accordance With BS5266
- Key Activated With 4 Pre-Programmed Test Intervals;10 minutes, 30 minutes, 60 minutes & 180 minutes
- Clear LED Digital Display Indication For Duration Test
- Optional Audio Buzzer Alert For Completion Of Duration Test
- Compact Design Manufactured From Anti-Microbial Material Urea
- Operating Voltage: 220-240VAC; 4A LED, 10A Incandescent, 6A Fluorescent

Technical Specification	
Display	LED Light Tube
Relay	240VAC@16A
10A Incandescent	6A Fluorescent
Operating Voltage	220-240V AC, 50Hz
Dimensions	86mm x 86mm x 33mm
Mounting	Optional Flush or Surface

5-AC5398-2021-V1
