Acel part number AC0455

Multi Material Drill Bit - 6.0mm

The Ultimate Multi-Purpose Drill Bit

Impact rated for use in impact drivers.

Custom ground drill tip geometry allows the bit to drill through multiple materials for versatility and convenience.

¼" quick-change shank means drill bits can be rapidly interchanged for convenient and hassle free drilling.

High quality steel and 1 piece body construction for extra durability.

Designed and manufactured in Sheffield, UK

Designed for use in: Sheet Metal, Soft Tile, Timber, Soft Brick, Lightweight Block.

Twister Multi Material Drills are ideal for:

Drilling fixings holes for wall plugs etc.

One handed drilling in tight spaces with an impact driver.

Drilling multiple materials with one drill bit and one power tool.

Technical Specification	
Diameter	6.0mm
Working Length	95mm
Overall Length	150mm

10-AC0455-2021-V1
