16 Piece Twister Drilling Set

Includes Armeg's premium brand quality drill bits all impact rated for impact drivers.

The set is supplied in a stylish and durable set case for tool protection. The multi-material drilling set features Armeg's much loved drill bits designed for drilling masonry, wood and metal for the ultimate versatility. All shanks are manufactured to 1173:200.

Set includes:

Twister HSS Cobalt Drill Bits. Featuring 5% cobalt for increased wear resistance and extended durability. Provides up to 10 X Life in stainless steel compared to standard HSS bits.

Twister Multi Material Drill Bits. 1 piece design made from high quality steel for optimum performance in impact drivers. Drills through multiple materials including lightweight block, soft brick, timber, soft tile and sheet metal.

Nail-Proof Stubby Woodbeaver. The solution to drilling in nail embedded wood, with a compact length ideal for inter-joist drilling.

Acceler8%. Designed specifically for drilling sheet steel, Acceler8% is built for speed. HSS cutting edge with 8% cobalt for durability. Flared body +

Technical Specification

10-AC0458-2021-V1
