

Acel part number AC0175

25mm Scutch Comb Chisel

The SDS Plus Scutch Comb Chisel is the perfect choice for general electricians preparation work in masonry.

The hammer action chisel is purpose designed for masonry dressing, levelling uneven masonry surfaces and forming channels / back box holes etc.

Designed for use in SDS Plus machines with roto-stop facility.

Can be used in:

General concrete, Soft bricks, Lightweight mortar Limestone, Constructional granite, Natural stone, Hard bricks, Heavy duty concrete

Tech-Tips

It is necessary to try and keep all Scutch Comb teeth in contact with the material being chiselled to avoid the comb being levered out of the holder.

SDS Plus shanks should be greased prior to and during use. This reduces heat build-up which reduces wear on the chisel and on the machine.

Prior to using chisel, please ensure your machine has the 'chisel only' function as they are designed
