

Technical Specification 14.0mm Diameter 150mm Working Length 200mm Overall Length

Acel part number AC0313

SDS Plus Hammer Drill Bit

The professional standard for multiple hole drilling in masonry materials using an SDS Plus Machine.

Hammer Grade Carbide Tip - Hammer grade tungsten carbide tip gives extended life in the hardest masonry materials.

Copper Brazed to 1100oc - Furnace brazing process uses a copper braze heated to 1100oc giving the ultimate bond between body and tip, allowing the drill bit to withstand greater pressure and produce a greater number of holes.

Precision Machining - Tip insertion is secured using purpose made machines operating to pre-set specifications & tolerances, ensuring a consistently accurate and perfectly centralised tip for rounder holes.

SDS Plus can be used in:

Heavy duty concrete General concrete Hard bricks Soft bricks Lightweight blocks Natural stone Constructional granite Limestone

10-AC0313-2021-V1
