

Acel part number AC0582

90V - 1000V Vibrating Volt Stick

90V - 1000V Indication
Vibrates on Detection
Illuminates on Detection
IP65
Auto Power On / Off
2 x AAA Batteries Supplied
CAT III 1000V

| Technical Specification | l             |  |
|-------------------------|---------------|--|
| Voltage Range           | 90V - 1000V   |  |
| Catagory Rating         | CAT III 1000V |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
|                         |               |  |
