

Technical Specification	
Colour	Clear
Shelf Life	24 months

Limitations - Chemical Resistance

Water, seawater, aliphatic solvents, oils, greases, diluted organic acids. Practically no dirt attachment.

Esters, Ketones, Aromatics, chlorine for swimming pools chlorinated solvents.

Concentrated Acids

AC0933

OB1 Sealant & Adhesive - Clear

• Bonds all metals even lead. Also bonds plastics including PVC & GRP and more materials including glass, mirror, polystyrene, fibreglass & wood. Works in water. Features zero VOCs.

• In harsh conditions it maintains its robust bond when cured from -40°C to +120°C

Perfect solution for use in kitchens and food
preparation areas

Ideal sealant for under water applications even
resistant to saltwater

• For instant repair or bonding with carbon fibre materials, fibreglass and GRP

• Allows flexible adhesion that can move with the expansion and contraction of metal and steel

Contains no solvents, is odourless and kind to the environment

• Contain no solvents so will never crack, shrink or collapse, creating a permanent seal/bond

• Contains no solvents or isocyanates so it will not degrade the back of mirrors

• Features Zero VOC's so it cures solid with no holes where bacteria can breed resulting in mould

• Perfect for roofing applications, seals, grips and fills lead flashings to stone, brick and felt
