

### AC333443

#### 1N/O + 1N/C Side Mounting Auxiliary Contact Block

Rated thermal current (Ith) 10A, Suitable for use with TC1-D range contactors and TP1-D09-D36 contactors (adding 12.5mm to the width).

| Technical Specification                            |                  |
|----------------------------------------------------|------------------|
| Number of contacts                                 | 2                |
| Rated operation voltage (Ue)                       | Upto 660V        |
| Rated insulation voltage (Ui)                      | 690V             |
| Standard                                           | IEC 60947-1      |
| Minimum switching capacity (U min / I min)         | 17 / 5V          |
| Short time rating 1s / 500ms / 100ms               | 100 / 120 / 140A |
| Insulation resistance (M Ω)                        | >10              |
| Time Delay (°C)                                    | - 40 - + 70      |
| Mechanical life (in millions of operating circles) | 30               |
|                                                    |                  |
|                                                    |                  |
|                                                    |                  |
|                                                    |                  |
|                                                    |                  |
|                                                    |                  |
|                                                    |                  |
