

### AC33735

### Blue (with Buzzer) 230V AC 22mm LED with Sounder Sound Output

IP65, Multi segment, Long life: 30,000 hours, Low temperature, 24V & 110V AC/DC, 230V AC, Complete with locking nut, Current rating 20mA, Provided with locking nut for a complete solution, Space saving, Ergonomic design, Long life (30,000 hours)

| Technical Specification     |                             |
|-----------------------------|-----------------------------|
| Flashing LED / Sound Output | 80DB (one sound per second) |
| Expected Life               | 30,000 Hours                |
| IP Rating                   | IP40                        |
| Standards                   | EN 60947, RoHS Compliant    |
| Brightness                  | 60cd/m2                     |
| Operating Temperature       | - 25° + 55°                 |
| Current Rating              | 20mA                        |
|                             |                             |
|                             |                             |
|                             |                             |
|                             |                             |
|                             |                             |
|                             |                             |
|                             |                             |
|                             |                             |
|                             |                             |
