

### AC6479

#### 16A Programmable Thermostat

A cost effective fully featured electric underfloor heating thermostat/timer, ideal for controlling any of the ACEL electric underfloor heating range.

This thermostat provides fully automated and flexible underfloor heating control to suit the owner's daily schedule. The thermostat features a daily heating schedule that can be tailored by the end user to operate as they wish. An easy-to-use manual mode can be switched on with a single button press and the controller then operates as a simple on/off thermostat unit.

This thermostat has an energy monitor that displays energy usage on a daily and weekly basis allowing users to monitor how much their heating is costing to run.

Technical Specification	
Supply Voltage	100-240 V AC +10% 50/60Hz
Output	Max 16A
Temperature Range	+5 / +35°C
Floor Limit Range	+5 / +40°C
Heating Schedule	2 or 4 event program
On/Off Differential	0.4°C
Dimensions (H/W/D)	82/82/56mm
External Sensor	NTC (12K ohm) 3m
Manufactured In	China
Approvals	UKCA, CE, IP21
Approved To	EN 60335-1:1998, EN60335-2-17:1999, IEC 60730
Compliant With	Part L, 18th Edition IEE Wiring Regulations EN 60335-1:1998, EN60335-2-17:1999 IEC 60730, Lot 20

- Easy to use and quick to navigate
- Programme 2 or 4 heating events per day
- Simple to set up
- Monitor energy use in kW and £s
- Max 16A, 3600W output
- 1 year battery backup
- Lot 20 compliant
- 1 Year Warranty
