

AC66356

16A WIFI Thermostat

A simple to use WiFi thermostat that offers remote operation from anywhere in the world via its companion App. The soft touch buttons also allow for easy in-home control. Ideal for controlling any of the ACCEL range of electric underfloor heating systems.

The wireless App control enables all aspects of the setup and operation of the thermostat to be carried out via the simple to use App. You can choose to individually control a single thermostat, or combine multiple thermostats to create heating zones.

This intelligent thermostat has energy-saving features including an Eco mode and energy-monitoring function allowing the owner to keep track of their electricity consumption on a weekly, monthly or annual basis.

Technical Specification	
Supply Voltage	95-265 V AC +10% 50/60Hz
Output	Max 16A
Display	Backlit B&W LCD Screen
Interrupter	1-pole, 16A
Floor Limit Range	+20 / +45°C
Heating Schedule	4 event
On/Off Differential	0.5°C
Dimensions (H/W/D)	87/87/42mm
External Sensor	NTC (12K ohm) 3m
WiFi	IEEE 802.11 b/g/n - 2.4Ghz
WiFi Security	WPA/WPA2
Manufactured In	China
Approvals	UKCA, CE, IP21
Approved To	EN 60335-1:1998, EN60335-2-17:1999, IEC 60730
Compliant With	Part L, 18th Edition IEE Wiring Regulations EN 60335-1:1998, EN60335-2-17:1999 IEC 60730, Lot 20

- Easy to use and quick to navigate
- Remote access and control via simple to use companion App
- Connects directly to wireless network, no gateway required
- Programme 4 heating events per day
- Simple to set up
- Monitor energy use in kW and £s
- Max 16A, 3800W output
- 1 year battery backup
- Lot 20 compliant
- 1 Year Warranty
