

AC69405

2 Litre Expansion Vessel, Check Valve and Pressure Reducing Valve

- Expansion vessel and check valve
- Includes pressure reducing valve
- For small unvented water heaters
- Of 5, 10, 15 litre capacity
- Comply with Water Regulations
- Required when incoming water pressure is above 4.2 bar
- Expansion vessel must be installed vertically with the connections at the base
- Expansion vessel capacity 2 litres
- Expansion vessel set at 3.5 bar
- Expansion vessel connection 1/2" BSP male
- Check valve 15 mm compression
- Includes banding for wall mounting the vessel
- Pressure reducing valve set at 3 bar

Technical Specification	
Expansion Vessel	2 litre capacity
	Factory set at 3.5 bar
	Maximum charge 10 bar
	Connection 1/2" BSP male
Check Valve	Connection 15 mm compression
Pressure Reducing Valve	Factory set at 3 bar
	Setting range 2 to 5 bar
	Maximum temperature 65°C
	Connection 15 mm compression
Approvals	All components WRAS approved
Warranty	1 year parts or replacement warranty
